

The submission of a 352p video was not ill-intended and was the result of using WhatsApp as a means of transfer from smartphone to pc. Even though I know understand that a mistake was made, I believe that my application demonstrates that I am a human being and that I comply with every requirement made.

My biggest fear is to lose my deposit, because for me, in my condition, it is a big amount of money.

There is an ongoing petition, with a lot of approval from the community, asking for the revision of the rule that requires a minimum of 360p (<https://snapshot.org/#/poh.eth/proposal/QmTZw1SnrQ7PTvvP6nf6tnNPFdKTKBJSnhEHZBzMBGqeeD>) I not only adhere to the petition itself, but I ask everyone to consider that not everyone is tech savvy and can make the same mistake I did. From what I've learned online, the 352 x 640 video is considered the same as the 360p worldwide and just differs in aspect but not in quality, because there is no damage to the image presented. Some smartphones seem to record in this aspect, and it seems that is my case.
