

Kleros Case 632

Mau

Mother of 5, Artisan and Jeweler

Although it is true that during video a small partial occlusion of face exists, this doesn't affect key features and proper recognition can be achieved by any human or face recognition software.

Additionally profile picture is clear enough so point 2 of requirements should be met

2. **Front-facing Submitter Picture** - Required

- The picture should include the face of the submitter facing the camera and the facial features must be visible.
 - Face should not be covered under heavy make-up, large piercings or masks hindering the visibility of facial features. Headcover not covering the internal region of the face is acceptable (For example, a hijab is acceptable for a submitter but a niqab is not).
 - It can include items worn daily (ex: headscarf, turban, wig, light makeup, etc) provided they do not violate the previous point. It cannot include special items worn only on special occasions that can, voluntarily or involuntarily, distract humans or algorithms from being able to detect identical faces.

That's why do ask to revert challenge and accept the profile with id
