Therefore there's absolutely no issue with how submittor have been rewarded.

This whole case is a money-grab created by the dispute creator to take funds from the KLEROS COOP.

As jurors and PNK holders, do you want to give PNK to this kind of person?

The answer is an easy no, that's why I will appeal this case and stake in this court in the eventuality of this round of jurors taking a nonsensical decision.

VOTE NO.
