

The policy specifies: “The sign should display in a readable manner the full Ethereum address of the submitter (No ENS; no ellipsis). The sign can be a screen. The submitter must show the sign in the right orientation to be read on the video.” In this case the address it is not complete, Go to case 836, (<https://resolve.kleros.io/cases/836>) in which a character was also missing, and it was not accepted, attached test video <https://ipfs.kleros.io/ipfs/QmVMnJNdnUvtcqpfuoKARLufuNLWpJx3gvc1NykBFvkzSQ/video.mp4>
