

Dear Jurors:

Here is a link to a video demonstrating again the proof "I'm a human" and not a robot. Just facts.

It is me trying to fight for what is mine, my identity. If there is something nobody can challenge is my identity, who I am what I did in my life.

<https://youtube.com/shorts/hu7Ni2hEzsU?feature=share>

As you may see it is equally easy to modify or crack or even deep fake like any other in the network.

It is clear to me that the challenger (given the amount of time he spent on this nonsense) is more interested in earning my deposit and more audience than in the integrity and success of proof of humanity. It is already evident the huge increase in followers after he challenge my postulation and made it public on twitter.

Why he did that? Why it was necessary to quote GLOB market cap? that was not on my public profile although is public information, it was not necessary, and had the only purpose of making the tweet bolder and more attractive for the audience. Will he continue harassing me the next time I post my profile again for any other senseless reason next time? What is he looking for?

@proofofhumanity may just change the instructions and clarify the situation if needed, but if this challenge results a success, it will be just for the challenger not for proof of humanity. I will lose my address, my deposit and my application and need to resubmit again for something is not a mistake neither is against the instructions.

Thanks again for reading all these and looking forward for a favorable resolution for the best of Proof of Humanity.
